My name is Carmen Mir Adorna. I am a painter and illustrator, I have worked on many editorial projects. I have mastered manual and digital illustration using the Adobe Photoshop and Illustrator programs. I also work multimedia and videos through Adobe Premier and other editing programs. I can give quick and creative solutions, and work as a team. I also make comics, as well as surreal drawings and paintings, creating characters from the world of fantasy. I work in any genre and technique within the Visual Arts, although my specialty is portraiture.
